- A. Fewer than six (6) dwelling units, or
- B. Less than 465 square metres of industrial, commercial or institutional space, or
- C. A parcel of land containing less than one half (1/2) hectares which will not involve the construction of any buildings or structures requiring a building permit.

\$6,000 If the application relates to land that, if passed, would allow the development of:

- A. More than six (6) dwelling units, but fewer than twenty (20) dwelling units, or
- B. Between 465 and 1,860 square metres of industrial, commercial, or institutional space, or
- C. A parcel of land containing more than one half (1/2) hectares but fewer than five (5) hectares which will not involve the construction of any buildings or structures requiring a building permit.

\$12,000 If the application relates to land that, if passed, would allow the development of:

- A. More than twenty (20) dwelling units, or
- B. More than 1,860 square metres of industrial, commercial or institutional space, or
- C. A parcel of land containing more than five (5) hectares which will not involve the construction of any buildings requiring a building permit.

All monies paid as deposits to the Township are held by the Township in trust until final disposition of the planning application. Applicants shall receive invoices for various expenses incurred by the Township for services provided in the conduct of an application.

Deposit monies shall bear interest at the most advantageous savings account rate of the Township's bank. In the event that an applicant does not pay the application fees and costs as provided for in this By-law by its due date, the Township will not be obligated to further process the application until such time as the account is paid. The Township may, at its' sole discretion, deduct outstanding accounts due from the applicant's deposit.

Where the Township approves a planning application, and that application is appealed to the Local Planning Appeal Tribunal by a party other than the applicant, the Township shall continue to submit invoices to the applicant for the provision of services provided with respect to the application, including the preparation and representation by Township staff or consultants before the Local Planning Appeal Tribunal. Failure to pay invoices or maintain the deposit as required may result in the Township's refusal to provide services in support of the application at the Local Planning Appeal Tribunal.

Where the Township rejects a planning application, and the applicant or any other party appeals the Township's rejection of an application, invoices for services provided in respect of such application shall continue to be submitted up until the time of submission of the appeal to the Local Planning Appeal Tribunal.

In the event that the Township provides a service in connection with a planning application for which a fee is to be paid as set out in this By-law, but such fee is not submitted or collected by the Township prior to the provision of service by the Township, then an invoice shall be submitted by the Township and the provisions of the deposit agreement shall apply to the invoice for service provision.

Applicants are encouraged to engage in pre-consultation with the Township prior to the submission of a planning application. Consultation with Township staff prior to the submission of a planning application is not charged to the proponent. However, if the requested pre-consultations requires the Township to engage its legal or engineering consultants or incur any external expenses, a deposit agreement shall be completed and the amount of such deposit shall be \$2,000. Upon submission of an application, any deposit monies that continue to be held by the Township may be applied against the total deposit required in support of a complete planning application or request for services.

Connection Fees are for the recovery of the Township's cost of bringing services from the mains to the property line. The Frontage Rates are to recover the cost of the mains running across the side of a lot on which the services are located, or in the case of a corner lot across the shorter side.

If the actual frontage or connection cost will, in the opinion of the Director of Infrastructure, exceed the above Connection fee or Frontage rate, the Managing Director may charge actual costs; a deposit equal to the estimated cost plus 20% for overhead shall be made by the property owner, and balance returned to or charged to the owner after completion.

Note 1: Total is calculated as the sum of Part 1 costs plus Part 2 costs

Note 2: Stub Connections

Stub Connections are for the future services to the existing properties located on side streets which are tributary to the County Road 18 trunk services. These will be dealt with at a future date, once service strategies and costs are determined for these side streets.

The cost of servicing each of the properties on these side streets will be calculated as the sum of the following:

Part 1: The actual cost for installing the stubs will be divided amongst the users who will be connected.

Part 2: Each property owner will be charged the standard Extension charge based on a single ERU.

Additional Charge: This charge will be calculated as the cost of the remaining infrastructure (i.e.: low pressure system) required to connect the side street users to the Wellington Road 18 system divided by the number of users.

Note 3: All rates above were created by indexing 2021 rates by 2.4%.
