

Centre Wellington

THE CORPORATION OF THE TOWNSHIP OF CENTRE WELLINGTON

**MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT
REPLACEMENT OF TRUNK STORM SEWER
VICTORIA CRESCENT, ELORA**

The Township of Centre Wellington (Township) has initiated a Class Environmental Assessment (EA) to address the severe deterioration of stormwater infrastructure within the Study Area shown in the sketch below. Stormwater runoff from the study area discharges to the Irvine Creek in the vicinity of Victoria Crescent in Elora. The storm sewer has insufficient cover and the overall condition of the aging sewer is extremely poor. This Class EA will consider options and identify the preferred alternative to address the deterioration of the structure.

As part of this process, a Public Notice has been placed in the Wellington Advertiser and the Township of Centre Wellington website – www.centrewellington.ca/livehere/Pages/Environment/Environmental-Assessments.aspx (See Attached).

This notice has been sent to approval agencies and residents in the vicinity of the noted storm outlet. If you have any questions, or concerns, and/or you wish to be removed from our mailing list, please don't hesitate to contact the undersigned.

Sincerely,

Paul Ziegler, C.E.T.

PUBLIC COMMENT INVITED

The Township of Centre Wellington (Township) has initiated a Class Environmental Assessment (EA) to address the severe deterioration of stormwater infrastructure within the Study Area shown in the sketch below. Stormwater runoff from the study area discharges to the Irvine Creek in the vicinity of Victoria Crescent in Elora. The storm sewer has insufficient cover and the overall condition of the aging sewer is extremely poor. This Class EA will consider options and identify the preferred alternative to address the deterioration of the structure.

The Process:

This project is being planned in accordance with the requirements of a Schedule "B" study under the "Municipal Class Environmental Assessment" (Municipal Engineers Association, June 2000 as amended in 2007 & 2011) which is an approved process under the Ontario Environmental Assessment Act. The Class Environmental Assessment process includes public and agency consultation, an evaluation of alternatives, an assessment of potential environmental effects, and identification of reasonable measures to mitigate any adverse impacts that may result.

How to Participate:

Public and agency consultation is a key component of this project. A Public Information Centre regarding this project is planned for the fall of 2016. This Public Information Centre will provide the public and agencies the opportunity to review alternatives considered and to discuss any questions or concerns relating to this project with the Project Team.

We Want to Hear From You!

If you have any questions, comments, or wish to be added to the project contact list to receive future notices and project updates, please contact the following Project Team members:
