

SCHEDULE "A"
BY-LAW NO. 2022-42
PERMIT FEES

Unless otherwise noted all definitions of building classifications shall be as defined in the Ontario Building Code for Major Occupancies.

Calculation of Building Permit Fees:				
Permit Fees shall be calculated based upon the formula below, unless otherwise specified in this Schedule:				
Permit Fee (rounded to the nearest dollar) = SI X A				
Where: SI = Service Index for Classification of the work proposed and,				
A = Floor Area of work involved				
Minimum Building Permit Fee:				
A Minimum Fee of \$120.00 shall be charged for all work, unless otherwise indicated				
Classes of Permits and Fees			Permit Fee (SI)	
Construction, Demolition and Change of Use			(\$ per	(\$ per
All buildings, Additions, Mezzanines & Structures			Sq. M.)	Sq. Ft)
			(\$)

700	Fee for Items not listed above	\$12.50 / \$1,000 of Estimated Construction Value		

NOTES TO TABLE

- a) Except houses registered with the Tarion Warranty Program (former Ontario New Home Warranty Program), a refundable deposit of \$500.00 shall be required for all new and major renovation permits and shall be refundable upon completion of the mandatory final inspection and issuance of an approved final inspection certificate.
- b) An **investigation fee equal to the applicable building fee** shall be **applied** where **work has commenced prior to the issuance of the required building permit** in addition to the building permit fee.
- c) In addition to the set fee the applicant shall be responsible for all costs associated with any required professional consultants per review of the application where deemed necessary by the Chief Building Official.
- d) In addition to the set fee, where structural upgrading of the existing roof and wall structures is required, the fee for the structural upgrading shall be assessed in accordance with Line 700 above

INTERPRETATION:

The following explanatory notes are to be observed in calculation of permit fees:

1. Floor area of the proposed work is to be measured to the outer face of exterior walls (excluding residential attached garages) and to the center line of party walls, firewalls or demising walls.
2. In the case of interior alterations or renovations, area of proposed work is the actual space receiving the work (e.g. tenant suite).
3. Mechanical penthouses and floor, mezzanines, loft, habitable attics and interior balconies are to be included in all floor area calculations.
4. Except for interconnected floor spaces, no deductions are to be made for openings within floor area (e.g. stairs, elevators, service shafts).
5. Unfinished basements and garages for single-family dwellings (including semis, duplexes, and townhouses etc.) are not included in the floor area calculation.
6. Where interior alterations and renovations require relocation of sprinkler heads or fire alarm components, no additional fee is applicable.
7. Ceilings are included in both new and finished (partitioned) buildings. The permit fees for ceilings apply only when alterations occur in existing buildings. Minor alterations to existing ceilings to accommodate lighting or HVAC improvements are not chargeable fees.
8. Where demolitions of partitions or alterations to existing ceilings are part of an alteration or renovation permit, no additional fee is applicable.
9. Corridors, lobbies, washrooms, lounges etc. are to be included and classified according to the major occupancy classification for the floor area on which it is located.
10. The classes of building permits and occupancy categories in the schedule correspond with the definitions of major occupancy classifications in the Ontario Building Code. For mixed occupancies, the permit fees for each of the applicable occupancy categories may be used.
11. For rack storage use, apply the square footage fee that was used for the building.
12. A temporary building is considered to be a building that will be erected for not more than one year.
13. The Chief Building Official shall determine fees for classifications of permits not described or included in the schedule.

Unless otherwise noted all definitions of building classifications shall be as defined in the Ontario Building Code for Major Occupancies.
