Craighead Cottage: Supporting Physician Recruitment

The Township of Centre Wellington is proud to share an exciting milestone in our ongoing commitment to healthcare recruitment and retention. Renovations at the historic Craighead Cottage are now complete, and visiting physicians and other healthcare professionals with Groves Memorial Community Hospital (GMCH) have officially moved into their new home-away-from-home.

Originally approved by Council in 2023 and supported through additional funding in 2025, the Craighead Cottage project represents a meaningful partnership between the Township and GMCH to ensure healthcare professionals have a welcoming and accessible place to stay while temporarily working in our community.

Providing quality accommodations is an important part of attracting and retaining healthcare providers—especially in a competitive environment where communities across Ontario are working hard to recruit medical professionals. This project reinforces our commitment to supporting local healthcare and ensuring residents continue to have access to the health services they rely on.

Craighead Cottage, a heritage property dating back to the 1840s, has been thoughtfully restored to meet modern needs while preserving its historic charm. With renovations complete and new occupants settling in, the cottage is now playing an important role in strengthening healthcare services for Centre Wellington.

We're grateful for the partnership with GMCH and proud of the work done to bring this project to life. Together, we're building a healthier, stronger future for our community.
