Appendix 1 - Chain of Title, PIN 71129-0031 - 6581 Hwy 6, Fergus

Appendix 2 - Qualifications of the author

All photographs taken by the author November 15, 2023 unless otherwise noted.

This Heritage Impact Assessment acknowledges that the subject property is located within the Township of Centre Wellington, situated within territory of the Petun, Anishinabewaki, Anishinaabe, Mississaugas of the Credit First Nation, Mississauga and Odawa. These lands are acknowledged as being associated with the *Haldimand Treaty* and *The Simcoe Patent, Treaty 4, 1793*<sup>1</sup>. This document takes into consideration the cultural heritage of Indigenous communities including their oral traditions and history where available and related to the scope of work.

The lands we know today as the Township of Centre Wellington have been home to Indigenous peoples since time immemorial. We acknowledge that we are on the treaty lands and traditional territory of the Anishinaabe and the Haudenosaunee.

With increasing encroachment by non-Indigenous settlers in the Township of Centre Wellington, the Anishinaabe and Haudenosaunee could not continue their traditional lifestyle and settled in their villages along the Credit River and in the Grand River Valley. These Indigenous nations uphold their Treaty Rights within our jurisdiction.

Today, the Township of Centre Wellington remains home to Indigenous peoples from across Turtle Island. We are grateful to have the opportunity to share and respect Mother Earth and are committed to building constructive and cooperative relationships with Indigenous nations.<sup>2</sup>

## **EXECUTIVE SUMMARY**

---

The farmhouse on the property at 6581 Highway 6, Centre Wellington (Fergus) is of cultural heritage value; it has not been placed on the Township's Heritage Register and it is not designated under the *Ontario Heritage Act*. However, the property was identified by the Township as potentially having heritage significance, and as an application is being made to develop a residential subdivision on the lands, a Heritage Impact Assessment has been requested for the property.

The subject property is on the northerly edge of the Town of Fergus on the east side of St. David Street North/Highway #6. The property exhibits relatively flat agricultural cropland with the farmhouse located approximately 40 metres from the Highway right-of-way.

The 1½ storey, rubble stone farmhouse at 6581 Highway 6 features an unusual asymmetrical, double-gabled front facade and gables on all four facades, each with a different window configuration. The property has a farmstead incorporating outbuildings and an early 20<sup>th</sup> century bank barn. Mature trees, both deciduous and coniferous are found in the farmstead landscape.

The farmhouse is of cultural heritage significance, possessing both design or physical value and contextual value. It meets the *Regulation 569/22* criteria for designation under Part IV of the *Ontario Heritage Act* in the opinion of the author and is worthy of conservation. None of the other farmstead buildings is considered significant.

Retention of as much of the mature landscape associated with the farmhouse is desirable, as well as maintaining its public presence on St. David Street North/Highway #6.

The development concept for the subject lands is a plan comprised of residential units ranging from single family to medium density with parkland. It incorporates the culturally significant farmhouse on a generous lot, retaining a significant amount of the mature landscape associated with it, as well as maintaining its public presence on St. David Street North/Highway #6.

Should the property be designated under the *Ontario Heritage Act* and renovations or restoration pursued, Heritage Permits will likely be required, where conservation principles would apply.

## 1.0 INTRODUCTION TO THE DEVELOPMENT SITE

---

An application is being made for a Plan of Subdivision on the 20.2 ha (50 acre) parcel, containing a farmstead with a farmhouse, barn and outbuildings. The property is neither designated under the *Ontario Heritage Act*, nor listed (non-designated) on the Township's Heritage Register; however, it has been identified by the Township as potentially having heritage significance and the Township has requested a Heritage Impact Assessment (HIA) be submitted. An HIA was recommended for the property in the *Planning Justification Report* for an adjacent proposed development<sup>3</sup>. This HIA addresses the property based on the requirements of Section 4.6.7 of the *Wellington County Official Plan*, which is as follows:

"A heritage impact assessment and conservation plan may be required to determine if any significant cultural heritage resources are impacted by a development proposal".

The contents of the HIA are guided by *Info Sheet #5, Heritage Impact Assessments and Conservation Plans* (Winter 2006), which requires the following components:

- Historical research, site analysis and evaluation
- Identification of the significance and heritage attributes of the cultural heritage resources
- Description of the proposed development
- Assessment of development or site alteration impact
- Consideration of alternatives, mitigation and conservation methods. Methods to minimize or avoid a negative impact on a significant cultural heritage resource include:
  - o Alternative development approaches
  - o Isolating development and site alteration from significant built and natural features
  - o Design guidelines that harmonize mass, setback, setting, and materials
  - o Limit height and density
  - o Allow only compatible infill and additions
  - o Reversible alterations
  - o Buffer zones, and
  - o Site plan control
- Summary statement and conservation recommendations.

### 1.1 Location

---

Figures 1 and 2 illustrate the location of the subject property and its neighbour to the south on the northerly edge of the Town of Fergus on the east side of St. David Street North/Highway #6. The farmhouse is located approximately 40 metres from the Highway right-of-way.

The farmstead is visible from the public realm, Highway #6, although it is partially screened by mature trees, especially when the deciduous trees are in leaf.

---

<sup>3</sup> Since there is a proposed development for the property at 965 Gartshore Street, the evaluation recommends that a Heritage Impact Assessment (HIA) should be undertaken to identify impacts to the cultural heritage value and heritage attributes of the subject property and should consider the adjacent properties that the Township has flagged for potential inclusion on the municipal heritage register: 6611 and 6581 Highway 6, 968 St. David St. North and 950 Gartshore Street. *Planning Justification Report, 965 Gartshore Street, 970 Gartshore and 101 Gregson Court*, GSP Group May 2023 p. 34

Figure 1 location of subject property - GRCA mapping (2020 orthophoto)

The legal description of the property is: 6581 Highway 6 - Part Lot 18, Concession 16, former Nichol Township, Township of Centre Wellington

Figure 2

subject property - GRCA mapping (2020 orthophoto)

## 1.2 Description of the property - features, landscape, views and buildings

### Landscape and views

There is less than 3 metres of elevation change across the the property, with the lands very gently sloping towards the southeast corner wetland on the 968 St. David Street North property. Trees line the rear of the property; there is a sparse tree line on the northern boundary and an even sparser one between the property and the one to the south. Mature trees are found on the farmstead. Lands to the east are agricultural. On the west side of Highway 6 are residential and agrucultural uses (Figure 3).

Figure 3

looking across Highway 6 from the driveway of 6581 Highway 6

### **Buildings - 6581 Highway 6**

The farmstead contains a 19<sup>th</sup> century Ontario Gothic, 1½-storey, stone farmhouse with an attached garage, a large bank barn, two storage bins, a well house and a chicken coop (Figures 4 & 5).

Figure 4 farmstead, 6581 Highway 6 - GRCA (2020 orthophoto)

Figure 5

6581 Highway 6 farmstead from the highway - Google Maps

The *circa* 1860s<sup>4</sup> L-shaped house is built of rubble stone with an extensive amount of mortar and ribbon or tape pointing to give the appearance of cut stone. The three walls visible from the highway have been given this treatment, while the rear wall has not. The Ontario Gothic, a style that is perhaps the most common Ontario farmhouse style prior to 1950, is manifested typically in a 1½-storey configuration. A gothic gable is usually found above the central front door, although in this case, there is an unusual double front gable in an asymmetrical format. Even more unusual is the fact that there are gables in both side elevations and the rear elevation as well, and these are also different from one another, one side having two windows in the gable, and the other, one window (Figures 6 - 9).

Figure 6

front (west) facade, 6581 Highway 6

---

<sup>4</sup> MPAC records indicate a construction date of 1885

Figure 7

north facade, 6581 Highway 6

Figure 8

south facade, 6581 Highway 6

Figure 9

rear (east) facade, 6581 Highway 6

The front porch (Figures 6 & 8) is a 1973 addition (see Figures 11 - 14). A one-storey, wood-sided, frame addition is on the northeast corner at the rear of the house (Figure 9).

Figure 10 shows the series of five gables on all four elevations, two on the front elevation, an unusual form.

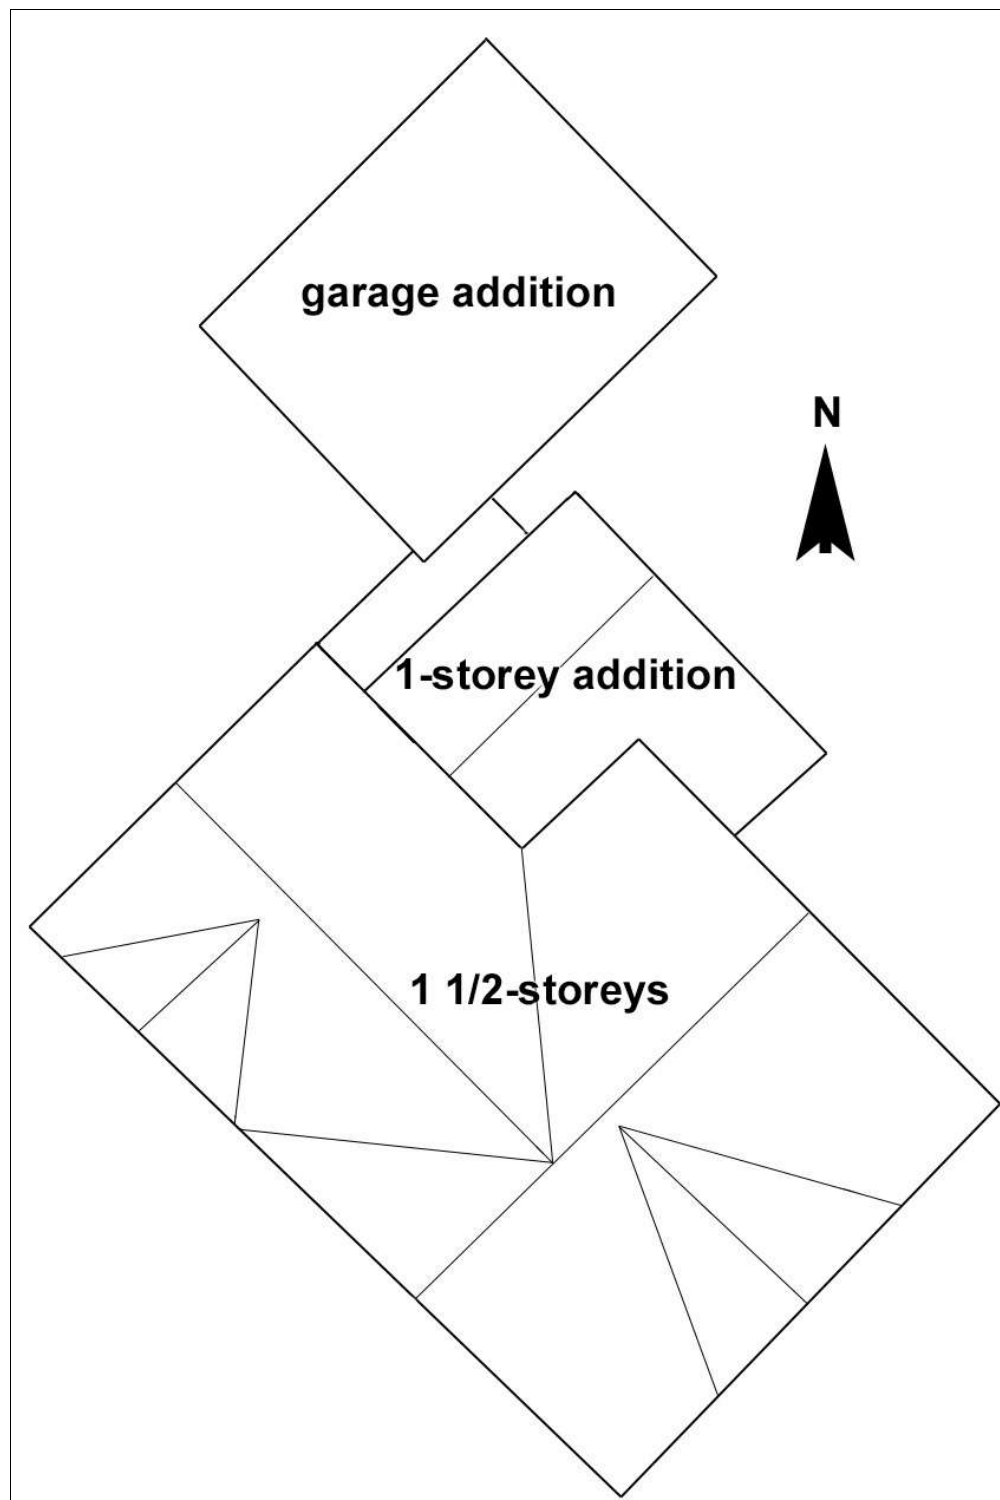

Figure 10

roof plan, 6581 Highway 6

The following four photos are from a collection of slides by Gordon Couling that are housed in the Wellington County Museum and Archives and available on-line. Figure 11 was taken in 1970 and Figures 12 - 14 were taken in 1973 while the current front porch and attached garage were being added.

Figure 11 6581 Hwy 6, 1970, Gordon Couling, Slide no. 5103, *Wellington County Museum & Archives*

Figure 12 6581 Hwy 6, 1973, Gordon Couling, Slide no. 5102, *Wellington County Museum & Archives*

Note the creosote stain from a former chimney on the wall in the right hand gable and the 2/2 double hung, wood sash windows which have since been replaced.

Figure 13 6581 Hwy 6, 1973, Gordon Couling, Slide no. 5104, *Wellington County Museum & Archives*

Figure 14 6581 Hwy 6, 1973, Gordon Couling, Slide no. 5105, *Wellington County Museum & Archives*

Figure 15

front facade gable, 6581 Highway 6

Soffits, verge boards and fascia are aluminum clad. The roof is asphalt shingled and the stone walls are heavily parged with ribbon pointing.

Figure 16

rear wall, 6581 Highway 6

The contrast between the three walls visible from the public road and the rear wall is apparent in Figure 16.

Figure 17 replaced upper window, 6581 Highway 6

Figure 18 original upper window, 6581 Highway 6

Figure 19 vinyl replacement window, 6581 Highway 6

Figure 20 original 4/6 window, 6581 Highway 6

There appears to be one remaining original window, a double with 4/6 lights on the rear wall of the house. The remaining windows are replacements, some with faux muntins. Sills are cut limestone.

The front door of the house is a replacement (Figure 21) and it appears that the original door might have either been a double door or a door with sidelights. The replacement door predates the porch and garage addition of 1973, as can be seen in Figures 11 - 14.

Figure 21

front door, 6581 Highway 6

Outbuildings include a large, early 20<sup>th</sup> century, wood-sided, frame bank barn, founded on a poured concrete foundation (Figures 22 & 23), two storage bins (Figure 22), a well house (Figure 24), and a chicken coop (Figure 25).

Figure 22

bank barn &amp; storage bins, 6581 Highway 6

Figure 23

early 20<sup>th</sup> century bank barn, 6581 Highway 6

Figure 24

well house, 6581 Highway 6

Figure 25

rear yard & chicken coop, 6581 Highway 6

### 1.3 Overview of applicable heritage legislation, policies and guidelines

The following provides an overview of applicable heritage legislation, policies and guidelines as applied in this report.

#### The Ontario Heritage Act

*The Ontario Heritage Act, R.S.O., 1990, c.O.18* is the guiding legislation for the conservation of significant cultural heritage resources in Ontario. This Heritage Impact Assessment is guided by the criteria within *Ontario Regulation 569/22: Criteria For Determining Cultural Heritage Value Or Interest* which provide the mechanism for determining cultural heritage value or interest.

The Planning Act and Provincial Policy Statement 2024

The *Planning Act* makes provisions respecting cultural heritage in Part I of the Act. Part I, Section 2(d) states: “The Minister, the council of a municipality, a local board, a planning board and the Tribunal, in carrying out their responsibilities under this Act, shall have regard to, among other matters, matters of provincial interest such as, (d) The conservation of features of significant architectural, cultural, historical, archaeological or scientific interest”

The Province has refined policy guidance for land use planning and development matters in the *Provincial Policy Statement, 2024 (PPS)*. The *PPS* is a policy statement issued under the authority of section 3 of the *Planning Act* and came into effect on October 20, 2024. The *PPS* applies to all decisions in respect of the exercise of any authority that affects a planning matter made on or after October 20, 2024. The *PPS* provides for the following with respect to built heritage resources:

- “4.6.1 Protected heritage property, which may contain built heritage resources or cultural heritage landscapes, shall be conserved.
- 4.6.3 Planning authorities shall not permit development and site alteration on adjacent lands to protected heritage property unless the heritage attributes of the protected heritage property will be conserved.
- 4.6.4 Planning authorities are encouraged to develop and implement:
  - b) proactive strategies for conserving significant built heritage resources and cultural heritage landscapes.”

A PLACE TO GROW, Growth Plan for the Greater Golden Horseshoe, Office Consolidation, August 2020

To protect what is valuable, The Growth Plan states in section 4.2.7 - Cultural heritage resources:

- “1. Cultural heritage resources will be conserved in order to foster a sense of place and benefit communities, particularly in strategic growth areas.
- 2. Municipalities will work with stakeholders, as well as First Nations and Métis communities, in developing and implementing official plan policies and strategies for the identification, wise use and management of cultural heritage resources.
- 3. Municipalities are encouraged to prepare archaeological management plans and municipal cultural plans and consider them in their decision making.”

Ontario Heritage Tool Kit

The Ontario Heritage Tool Kit aids in the assessment of cultural heritage resources and potential cultural heritage landscapes. “Heritage Property Evaluation” and “Heritage Resources in the Land Use Planning Process” are used in this report to evaluate and assess the existing resources on the subject properties.

Eight Guiding Principles

The Ontario Heritage Toolkit incorporates the *Eight Guiding Principles* on page 2 of *Info Sheet # 5 Heritage Impact Assessments and Conservation Plans*. These principles are used to guide conservation of resources of cultural heritage value or interest.

The *Standards and Guidelines for the Conservation of Historic Places in Canada (Second Edition)* are a benchmark for assessing proposed conservation interventions on the *character-defining elements* of an historic place. As such they may form the basis for review and assessment of any proposed alteration to the cultural heritage resource at the appropriate time.

County of Wellington Official Plan

The *Wellington County Official Plan* provides policies under section 4.1 in regard to Cultural Heritage and section 4.6 in regard to heritage impact assessments

Township of Centre Wellington Official Plan

The Township's Official Plan provides policies for cultural heritage conservation in section C.2 CULTURAL HERITAGE RESOURCES. Potential impacts on adjacent heritage properties are also addressed in this section. While there are no heritage resources adjacent to the subject properties, Figure 26 shows the listed heritage properties in the general area. There are no designated heritage properties in the vicinity.

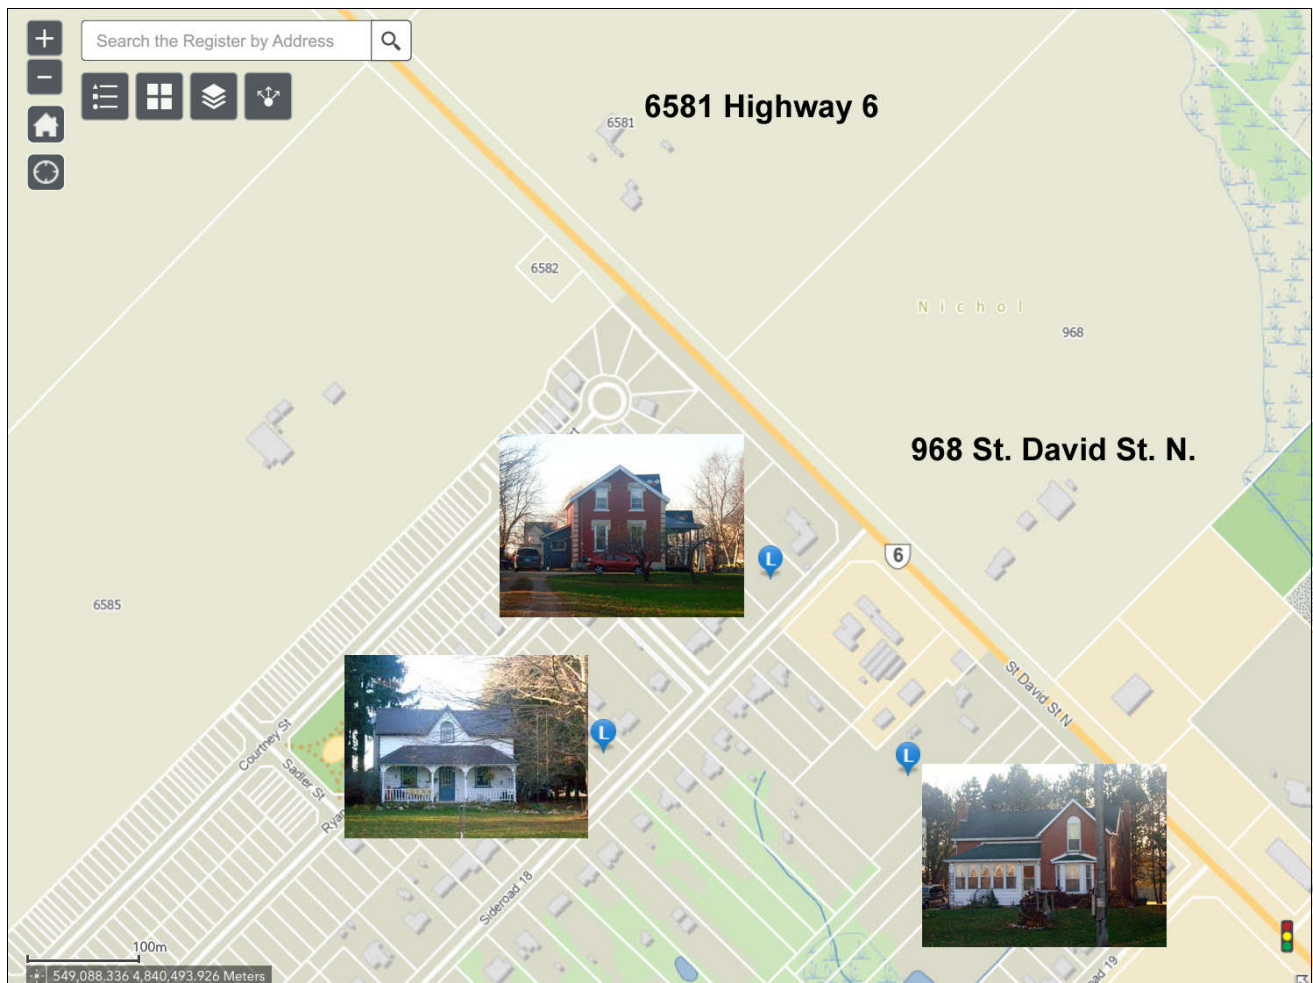

Figure 26 from the Township's Heritage Register  
<https://centrewellington.maps.arcgis.com/apps/webappviewer/index.html?id=131dde6511ee4cd1aadf80735e5f298b>

## 2.0 BACKGROUND RESEARCH AND ANALYSIS

---

“Nichol Township forms a part of the Reserve granted to the Six Nation Indians. On February 5th, 1798, Chief Brant in behalf of the Six Nations, sold several blocks of land to different parties. Block No. 4, consisting of 28,512 acres, now Nichol Township, seems to have been sold to Colonel Clarke, although there is no positive record attainable; however, on April 17th, 1807, a patent was granted him by the Crown to Block 4, a mortgage being given by Clarke to William Claus, Trustee for the Six Nation, to the amount of £4,564. On October 1st, of the previous year, Colonel Clarke had given his bond to William Claus and Alexander Stewart for this amount, payable in a thousand years, the interest to be paid annually. The Crown gave Colonel Clarke the land on the conditions mentioned, in recognition of his military services, and the new township was named after Colonel Nichol, who had distinguished himself in the war of 1812. In 1832 William Gilkison, who was originally a Glasgow merchant, bought 13,816 acres, being the south half of the township. In 1834, Adam Ferguson and James Webster bought 7,367 acres, comprising lands on both banks of the Grand River at Fergus, and the land north-east.”<sup>5</sup>

In 1834, the population of the township was 134 and 181 acres of land were in cultivation. There were 16 horses, 16 oxen, 33 milk cows and 13 head of young cattle.<sup>6</sup>

### **6581 Highway 6** (see also Appendix 1, Chain of Title)

In 1841, James Webster sold his interest to the Honourable Adam Ferguson.. Ferguson in turn, sold the 50 acre parcel Part Lot 16, Concession 16 (6581 Highway 6) to John Watt who presumably settled and cleared the land and built a dwelling soon thereafter.

Watt sold the farm in 1876 to William Tindale, whose name appears on the 1877 County Atlas (Figure 27). It is possible that the current house was built in Watt’s tenure on the Owen Sound Road (now Highway #6). If not, it would have been built during Tindale’s tenure (1876 - 1899). Judging by the architectural style and details and the fact that the property sold in 1876 for \$3,000 (Appendix 1), it is likely that the house was built in the latter part of the period between 1841 and 1876. The property was transferred to Robert Tindale in 1899 and his name appears on the 1906 County Atlas (Figure 28).

In 1917, Tindale sold the property to Noah Strome(?) And in 1919 it was sold to William J. Jackson. Jackson resided there until 1931 when it was transferred to John T. C. Jackson.

Sixty years later a transfer from John Thomas Chester Jackson was made to Orian Doreen Sampson, and in the next year, 1992, Sampson transferred the farm to Friedrich Ehrlich.

Figure 28 from Wellington County Atlas - 1906

### 3.0 STATEMENT of SIGNIFICANCE - 6581 Highway 6

*Ontario Regulation 569/22* ‘Criteria for Determining Cultural Heritage Value or Interest’<sup>7</sup> states for a property to be considered of cultural heritage value or interest, it must meet two or more of the following nine criteria. The following table lists the criteria and answers the question “is the criterion met?”

critterion	met?	rationale
1. The property has design value or physical value because it is a rare, unique, representative or early example of a style, type, expression, material or construction method.	yes	This house is an unusual example of a double-gabled front facade and with gables on all four facades, each with a different window configuration.

<sup>7</sup> Ibid

critterion	met?	rationale
2. The property has design value or physical value because it displays a high degree of craftsmanship or artistic merit.	no	The house does not display a high degree of craftsmanship; the original windows have been replaced; the rubble stone walls are heavily covered in mortar and ribbon pointed to resemble cut stone.
3. The property has design value or physical value because it demonstrates a high degree of technical or scientific achievement.	no	The design and physical structure do not demonstrate a high degree of technical or scientific achievement. It was built using common methods and materials.
4. The property has historical value or associative value because it has direct associations with a theme, event, belief, person, activity, organization or institution that is significant to a community.	no	No previous owners of the property are known to have been prominent members of the community.
5. The property has historical value or associative value because it yields, or has the potential to yield, information that contributes to an understanding of a community or culture.	no	There is no evidence of anything unique or rare in the building that would suggest that new information could be garnered from it.
6. The property has historical value or associative value because it demonstrates or reflects the work or ideas of an architect, artist, builder, designer or theorist who is significant to a community.	no	The architect / builder is unknown
7. The property has contextual value because it is important in defining, maintaining or supporting the character of an area.	no	Although the house is visible from the public realm, it is part of a farmstead on the periphery of urban Fergus and its agricultural context is and will continue to be compromised or lost.
8. The property has contextual value because it is physically, functionally, visually or historically linked to its surroundings.	yes	The house remains in its original location, dating from the mid to latter half of the 19 <sup>th</sup> century and in association with the farmstead which is diminished to an extent by the encroachment of urban Fergus.
9. The property has contextual value because it is a landmark.	no	The house does not terminate a view, nor does it occupy a prominent location in the landscape.

The house is of cultural heritage significance; it possesses one criterion of design or physical value, and one of contextual value. It meets two *Regulation 569/22* criteria for designation under Part IV of the *Ontario Heritage Act* in the opinion of the author.

The heritage attributes of the farmhouse are:

- the stone facades of the original house (north, west, south and east),
- all door and window openings on the designated exterior stone walls, (excluding the windows),
- the roofline over the original house (excluding the existing roof fabric).

The rear and garage additions and the front porch are not included. All non-original features may be restored to documented earlier designs or their documented original form.

Retention of as much of the mature landscapes associated with the farmhouse is desirable, as well as maintaining its public presence on St. David Street North/Highway #6.

#### **4.0 DESCRIPTION OF THE PROPOSED DEVELOPMENT**

---

Figure 29 is a Draft Plan of Subdivision for the development of the subject lands. The plan is comprised of residential units ranging from single family to stacked townhouses and parkland, and it incorporates the culturally significant farmhouse on a generous lot.

Figure 29 Draft Plan of Subdivision, Part Lot 18, Con 16, former Township of Nichol, Centre Wellington Polocorp Inc. - December 10, 2024

Figure 30 is a more detailed view of the integration of the conserved farmhouse in the development. The significant public views from the highway have been preserved. Sufficient space has been provided to conserve some of the mature trees on the property.

Figure 30

6581 Highway 6 integration with the community

The existing landscape associated with 6581 Highway 6, and the view from the highway are conserved with a new entrance provided from an internal street. The home and garage can be retained with the garage either being entered from the opposite end or replaced with a new structure (Figure 30).

## 5.0 IMPACT of DEVELOPMENT or SITE ALTERATION

The following assessment of potential impact the proposed redevelopment or site alteration may have on the cultural heritage resource is based on the possible negative impacts as stated in the *Ontario Heritage Tool Kit*.<sup>8</sup>

<i>Potential Negative Impact</i>	<i>Assessment</i>
Destruction of any, or part of any, significant heritage attributes or features	No significant heritage attribute, nor any part thereof is to be destroyed.
Alteration that is not sympathetic, or is incompatible, with the historic fabric and appearance	No alterations to the culturally significant building are proposed. The development is proposed on the adjacent farmlands.
Shadows created that alter the appearance of a heritage attribute or change the viability of an associated natural feature or plantings, such as a garden	Shadows created will not alter the appearance of any heritage attributes, nor change the viability of any plantings.
Isolation of a heritage attribute from its surrounding environment, context or a significant relationship	The culturally significant farmhouse will be removed from its agricultural context as the farmlands will become urban. However, the immediate environs will be conserved.
Direct or indirect obstruction of significant views or vistas within, from, or of built and natural features	The significant public views from the highway remain totally exposed.
A change in land use (such as rezoning a church to a multi-unit residence) where the change in use negates the property's cultural heritage value	There is major change in land use, from agriculture to urban. This does not negate the value of the retained farmhouse.
Land disturbances such as a change in grade that alters soils, and drainage patterns that adversely affect a cultural heritage resource, including archaeological resources	It is not expected that there will be land disturbance to the areas of the properties that contain the heritage resource. Drainage patterns are not expected to be altered.

## 6.0 CONSIDERED ALTERNATIVES and MITIGATION STRATEGIES

Alternatives considered included demolition of the farmhouse and relocating it. Neither is preferred and conserving it in-situ is the preferred strategy. Mitigation includes conserving the immediate landscape environs,

---

<sup>8</sup> PPS, 2005, *Info Sheet No. 5 Cultural Heritage and Archaeology Policies 2.6*, p. 3. (*Heritage Tool Kit*)

including many of the mature trees.

## **7.0 CONSERVATION STRATEGIES**

---

None of the 14 standards (conservation principles) of the *Standards and Guidelines for the Conservation of Historic Places in Canada* (Parks Canada) is applicable to this project as the heritage resource is not being altered in any way by the development proposal. It will remain as-is on a severed parcel.

Similarly, none of the *Eight Guiding Principles in the Conservation of Built Heritage Properties* (Ontario Ministry of Heritage, Sport, Tourism and Culture Industries) is applicable.

Should the properties be designated under the *Ontario Heritage Act* and renovations or restoration be pursued, Heritage Permits will likely be required, where the conservation principles would apply.

## **8.0 SUMMARY STATEMENT AND CONSERVATION RECOMMENDATIONS**

---

The farmhouse is, in the opinion of the author, a significant cultural heritage resource and worthy of designation under the *Ontario Heritage Act*. It is to be incorporated into the planned subdivision on a generous lot, to be accessed from an internal street, rather than the highway, and should retain some of its mature immediate landscape.

This Heritage Impact Assessment is respectfully submitted by:

CHC Limited

per: Owen R. Scott, OALA, FCSLA, CAHP
